## Eclipse Tables

900mm diameter top, fixed and height adjustable frames

### Overview

Eclipse tables are 100% Australian made, and available in a range of fixed height or height adjustable frames, with or without castors. Versatility that allows Eclipse Tables to cater for students from Kindergarten to University.

### Construction

Fully welded tubular steel, 38mm<sup>2</sup> square tube four leg frames, 35mm x 19mm fully welded support rails punched and screwed to each top. Frames powder coated for durability and ease of cleaning.

18mm Laminex Decorwood top surface, finished with a moulded 2mm thick ABS edge strip.

Telescoping height adjustable leg, where specified includes an allen keyed, secure, leg adjustment screw mechanism to adjust each leg.

All frames fitted with a hard wearing moulded floor glide.

### Dimensions

Eclipse Tables are available with either a 900mm diam top, an optional 1,000mm diameter top is available, and where supplied is fitted to a standard 900mm frame.

Fixed height tables are available in the following top heights: 460mm, 520mm, 580mm, 640mm, 700mm, & 760mm.

Height adjustable tables adjust to five heights across which include: 520mm, 580mm, 640mm, 700mm, & 760mm.
