SUPER LIGHTWEIGHT

Q-Build and Q-Plus modular staging answers a wide range of needs for the performing arts, for music and any school production. The systems' unusual design encourages creative participation - an almost infinite number of layouts can be achieved.

A range of Q-Build kits, including three affordable starter kits are available. These are an excellent way of making a balanced purchase. Self-contained, they combine all necessary parts to construct platforms of many different shapes and sizes. Extension kits provide existing customers with options to achieve a larger area or to convert to a tiered layout.

Q-Build decks (750 x 750mm) and Q-Plus decks (750 x 900mm) made from best quality plywood, finished in UV-cured, slip resistant acrylic lacquer as standard. Panels can be carpet covered, stained or emulsion finished in black.

Both Q-Build and Q-Plus have been tested to, and meet BS4875-5:2001 (part 5 for strength and stability), and BS6399-1:1996 (part 1 for loading for buildings) offering a proven range of stage and tiering products.

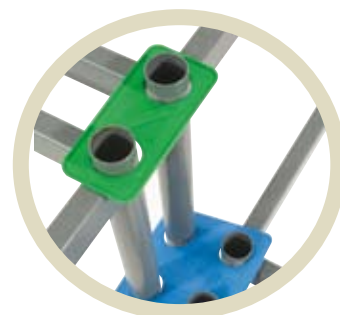

Reconfigure to different shapes and sizes again and again

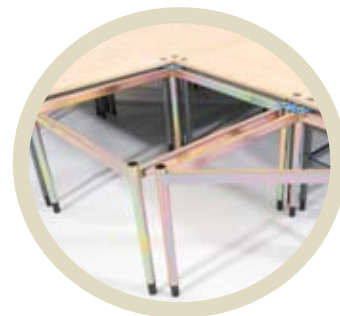

Frames and panels stack compactly on wheels

Standard frames provide unit heights of 166mm, 277.5mm, 500mm or 722.5mm or stack in multiples

Tie plates link frames

Panels locate securely without clips or fittings

A wide range of complementary accessories are available

KEY FEATURES

- : Stores compactly on trolleys
- : No tools or fixings
- : Ease and speed of handling
- : Lightweight & versatile
- : Safe to use

Easy to manoeuvre

available individually or

ask about our easy starter kits

kit one

- 12 x 500mm units (frames and deck)
- 6 x 277.5mm units (frames and deck)
- 6 x 277.5mm frames
- 1 x Trolley
- 2 x twin tread steps

Tie-plates

Creates a 4.5m x 2.25m flat stage at 500mm high or tiered layout as shown. Other combinations possible. Assembly time - 15 mins.

kit two

- 18 x 500mm units (frames and deck)
- 6 x 277.5mm units (frames and deck)
- 6 x 277.5mm frames
- 2 x Trolley
- 2 x twin tread steps

Tie-plates

Creates a 4.5m x 3.0m flat stage at 500mm high or tiered layout as shown. Other combinations possible. Assembly time - 20 mins.

kit three

- 24 x 500mm units (frames and deck)
- 8 x 277.5mm units (frames and deck)
- 8 x 277.5mm frames
- 2 x Trolley
- 2 x twin tread steps

Tie-plates

Creates a 6.0m x 3.0m flat stage at 500mm high or tiered layout as shown. Other combinations possible. Assembly time - 25 mins.

NB: Assembly time based on 1 adult with minimal assembly experience.

Q-build demountable staging. **Q-plus** modular tiering.

©Linc Furniture Pty Ltd 2009

Linc Furniture recommends the purchaser observe the requirements of relevant building authorities, building codes and other regulatory authorities that govern those safety aspects associated with the erection of a stage platform. Linc Furniture recommends the use of handrails where platforms meet or exceed 500mm in height and strongly recommends an engineer or other expert be consulted to ensure the safety of the environment that a platform is intended to be erected, prior to the product being assembled.

The system encourages creative participation - an almost infinite number of layouts can be achieved.
